

The Earth is constantly monitored by the extraterrestrials, but they do not openly intervene, leaving the earthlings to make and be responsible for their own actions. Nevertheless, sometimes the extraterrestrials take people to the trips to other planets, reminding us that we are not alone in the Universe, and possibly about the extraterrestrial origin of life.

On other occasions people meet semi-immortals who live among us and learn from them.

Mind-blowing books are written about such contacts. Some of them were translated into Russian and presented on this site. Here you will find various topics related to the history of Earth, origin of our civilisation, Atlantis and Lemuria (Mu), pyramids, UFOs, extra-terrestrials, forms of life on other planets and in the Universe, purpose of life and death, reincarnation, life before birth and after death, soul, astral body, higher self, immortality, destiny, religions, who is Christ, what or who is God, and many others.

[Thiaoouba Prophecy](#) . In 1987, Michel Desmarquet, a French born Australian citizen, was taken by the extraterrestrials to their planet Thiaoouba for 9 days. Thiaoouba with its advanced inhabitants is the planet of the highest category. Michel wrote a book about his trip.

The Immortal. There exists a belief, that John the Beloved, the one who wrote the Book of Revelation and the Gospel of John in the Bible, did not die, but up to this day walks the Earth with a special mission. Joseph John Dewey, an American, has met John the Beloved in person, and in his semi-fictional sequel "The Immortal" tells the reader what he had learned from that wise man endowed with 2000 years life experience.
